MIHIR ALMAULA

Mobile Application Developer | iOS · Flutter

+91 79901 55498 • mihiralmaula19@gmail.com • Bharuch, Gujarat, India (open to relocation & remote work)
linkedin.com/in/mihir-almaula-b8548116b • github.com/Mihir1913 • 4 live apps on the App Store & Google Play

PROFILE SUMMARY

Mobile Application Developer with 5+ years building and shipping production apps in fintech, QSR operations, government services and real estate. 4 live apps on the App Store and Google Play, including a government ticket-booking app rated 4.8 stars (439 ratings). Currently leading a 3–4 developer team at IQ Infinite Technologies; proposed and shipped Qeazy (Flutter) from own concept to release.

CORE SKILLS

Languages & UI: Swift, SwiftUI, Objective-C, Dart, UIKit, Auto Layout | Architecture: MVVM, MVC
Cross-Platform: Flutter · Dart — shipped Qeazy end-to-end on Google Play
Data & Networking: Firebase (Auth, Firestore, Crashlytics), Realm, Core Data, REST APIs, WebSocket, JSON, URLSession
Payments & Integrations: Razorpay payment gateway, APNs / FCM push notifications, Google & Meta Analytics, AdMob
Tools & Release: Xcode, Git / GitHub / GitLab, Jira, App Store Connect, TestFlight, Agile / Scrum, sprint planning, code review
AI-Assisted Development: Claude, ChatGPT, Cursor — daily use for code generation, debugging and code review

WORK EXPERIENCE

iOS Developer — Team Lead | IQ Infinite Technologies, Ahmedabad — Sep 2022 – Present

- Lead a team of 3–4 developers — sprint planning, Jira task management and code reviews; promoted from Junior iOS Developer within the company.
- **Gujarat Science City** (App Store — 4.8 stars, 439 ratings): government-facing ticket-booking app (Swift, Objective-C) with QR-based payments, booking history and digital ticket delivery.
- **EQSR 360** (App Store): QSR food-safety and operations platform (Swift, MVC) — digital safety logs, push-notification task alerts; Crashlytics-driven fixes reduced crash rate ~30%.
- **GoldNest** (App Store): fintech app — Razorpay payment gateway for virtual gold purchases, daily / monthly / yearly SIP plans, secure wallet withdrawals and multi-role shop management.
- **Real Estate platform** (Swift, MVVM): property buying / selling / renting with WebSocket real-time chat, advanced search filters and document verification that flags fraudulent listings.
- **Qeazy** (Flutter, Dart · Google Play): own product idea, approved by leadership — restaurant queue and table management with QR check-in, guest calling and queue analytics.
- Released and maintained apps via App Store Connect and TestFlight; integrated Firebase, analytics, push and payment services across projects.

iOS Developer Trainee | SoftSolutions, India — Jun 2021 – Sep 2022

- Built and tested iOS features with Swift, UIKit and MVC; REST API integration, JSON parsing, debugging and performance testing alongside senior developers.

PERSONAL APPS (Swift)

- **Kachuful Scorekeeper** — card-game scoring app with Realm offline storage and AdMob monetisation.
- **Word Play** — orientation-aware charades app with Firestore real-time sync and AdMob.

EDUCATION

B.E. Information Technology | SVMIT, Bharuch — Gujarat Technological University (GTU) | 2013 – 2019
